There are a lot of guardians involved with students. Often times those students parents are not involved with them. I think that it is confusing that a parent, any parent would have access.</p> <p>I think it should read: "Guardian" a parent, guardian or another responsible person acting as a parent of a student in the absence of a parent or guardian.</p>	N	This suggestion is well received, however at this time the WVDE will not be making any changes to terminology in Policy 4350 so as to maintain the uniform terminology currently used in WVDE policies and federal law (FERPA).
